

# A commitment to our *learners*

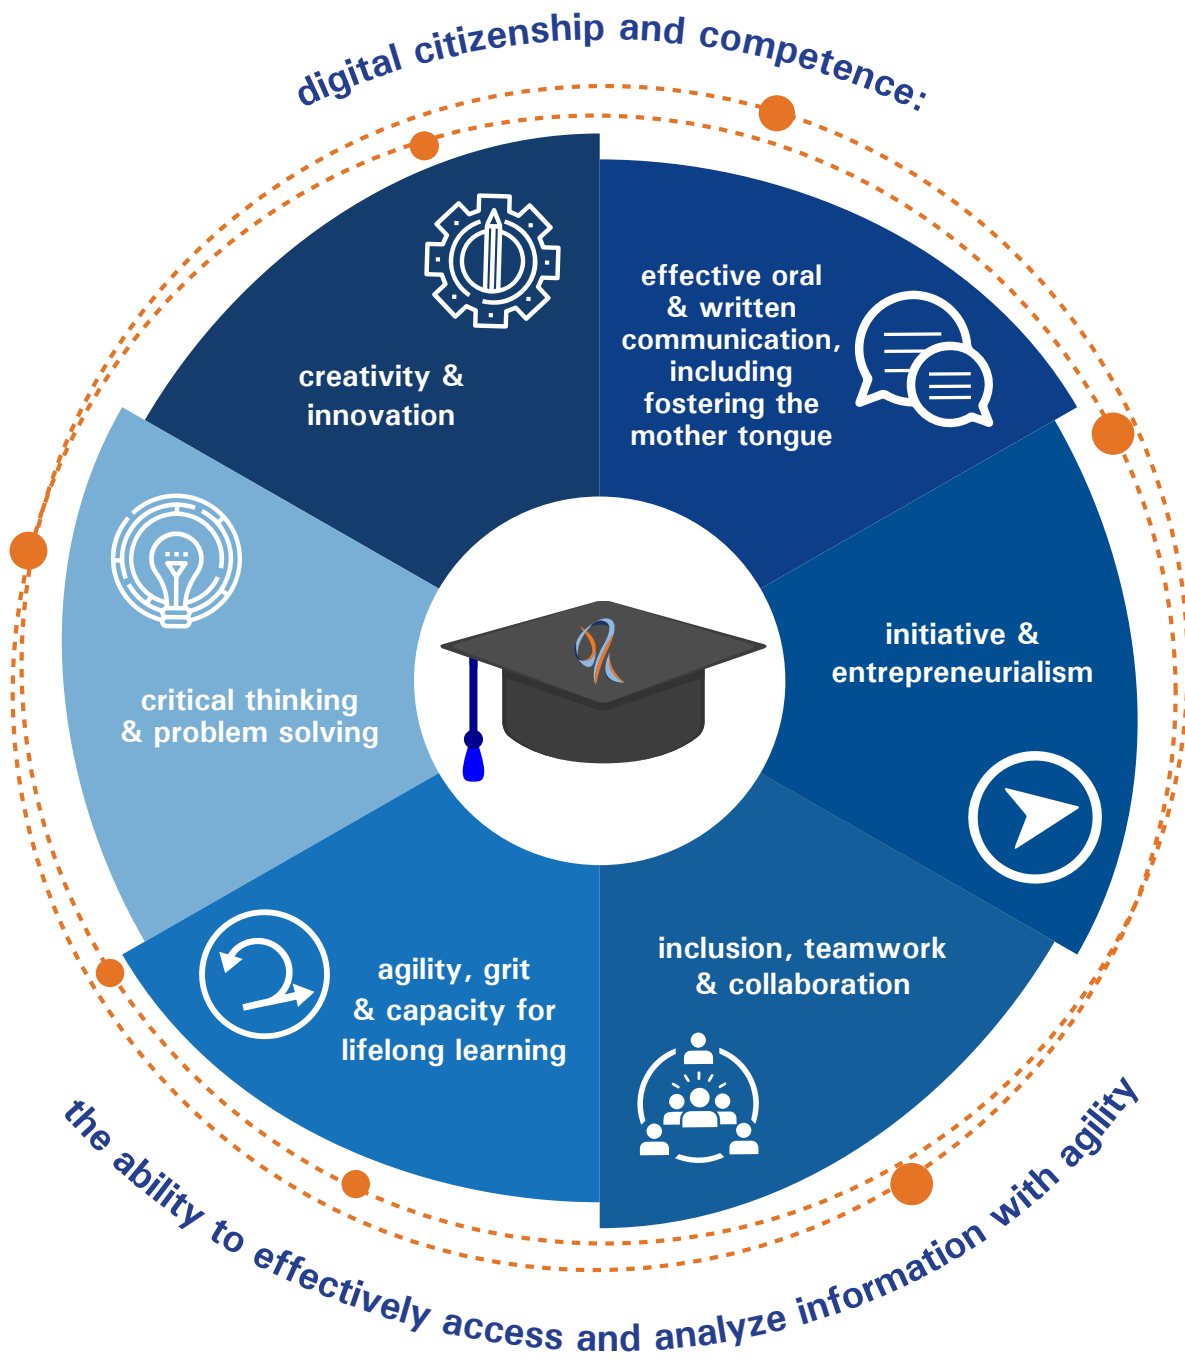

**Pembina Trails School Division** is committed to ensuring that all students are intellectually and personally engaged in learning which supports them in developing, practicing and refining the skills required to be successful in school and throughout their lives.

Global learning competencies, skills and deeper learning have been identified internationally as a way of ensuring that all students are well-equipped to meet the demands of an ever-changing modern society.

**These competencies include:**

Deeper learning for our students has required a significant shift in our model of teaching and learning. The teacher is the activator and facilitator of student learning. We acknowledge that growth belongs to the student and must focus on the learner.

Developing as learners involves the identification of problems, and the research and analysis of information to solve those problems. Students collaborate as they reach out to peers, the school, the community and beyond to engage in authentic learning that is relevant to their lives. This is achieved in flexible learning environments, rich in information and communication technology.

Our commitment creates lifelong engagement and future success for all learners.
