### Cyclic Replacement – Windows 8.1 operating system installation

As part of the divisional cyclic replacement process for new tablet and mobile computing equipment, Windows 8.1 and Office 2013 will be installed on these systems. The equipment that is being replaced had Windows 7 and Office 2010 installed. We wanted to inform you of the subtle changes in Windows 8.1, from Windows 7

Please review the following information areas, which contain useful links to Microsoft videos, information, and tutorials.

## Windows 8.1 – Quick start guide (PDF)

## Reminder of ITA Axis support sites (Internal use only)

A great place to start for all things technical in Pembina Trails.

We have a FAQ (Frequently Asked Questions) Center and our main Axis site as a repository for technical support information on a wide variety of technologies used in the Division.

**ITA FAQ Center:** <http://axis/sites/it/ita/FAQ%20Center/FAQ%20Center.aspx>

**ITA Axis site:** <http://axis/sites/it/ita/default.aspx>

### Contacting the ITAs
